EXPERIENCE

Company: OSI Digital
Role: Project Associate Trainee
Duration: August 2023 – February 2024

- Created Django-based web systems, optimizing 10+ database interactions with Django ORM.
- Designed and managed 5 relational databases with SQLite, and crafted 15+ structured HTML pages with enhanced styling using CSS.
- Implemented interactive features with JavaScript and built responsive web applications using Bootstrap, improving user experience.

Company: Perfexion Information Technologies Pvt, Ltd.
Role: Software Associate
Duration: August 2022 – July 2023

- Engineered robust backend logic and constructed flexible scripts with Python, improving application performance.
- Developed web services utilizing Django, boosting scalability and performance through effective Django ORM usage.
- Optimized SQL databases, executed complex queries, and managed code repositories with Git for version control and team collaboration.

PROJECTS

Title: A to Z Online Shopping
Duration: May 2024 – June 2024

- Established a comprehensive online shopping platform using Python (30%) and Django, facilitating efficient role-based management for administrators, sellers, and customers.
- Crafted the front-end layout through HTML (50%) and CSS (10%), ensuring a responsive and visually appealing experience for browsing, ordering, and managing products.

Title: Movie Booking
Duration: March 2024 – April 2024

- Fashioned a Movie-Booking platform using Django (21%) and Python, featuring real-time updates and full admin controls for managing movie content.
- Shaped the user interface with HTML (72%) and CSS (7%), ensuring an intuitive and interactive booking experience.

Title: Java Documentation Website
Duration: February 2024 – March 2024

- Built a responsive JavaScript documentation platform using HTML (88%) and Bootstrap, providing users with comprehensive learning resources and interactive quizzes.
- Implemented user authentication and personalized features with JavaScript (5%) and CSS (7%), allowing users to securely register, access quizzes, and download achievement certificates.

TECHNICAL SKILLS

Backend   : Python
Framework   : Django
Database   : SQL, SQLite
Frontend Tools   : HTML, CSS, Bootstrap, JavaScript
Frontend Framework   : React.js
Productivity tools   : MS Office

ACHIEVEMENTS
